

# CONICAL-CUP

## CONICAL SHAPED, POLYURETHANE PIPELINE SCRAPER CUPS

\*Knapp produces for the replacement cup market, a wide lip conical shaped cup. Conical cups conform to out-of-round pipe, providing a continuous flexible seal. This flexibility allows the cup to pass over obstructions in the line without pig damage.

\*Knapp fabricated all urethane conical cups, incorporate the latest technology to provide maximum abrasion resistance for longer wear and wider seal.

\*One cup design for multiple body uses.

\*Conical-Cup is available in sizes 6" through 60"+, with interchangeable bolt hole and mandrel dimensions. The conical shaped cup easily adapts to changing pipe conditions with diameter changes up to 20%.

\*Get the Knapp advantage working in your favor.

\*Innovative products, using the most advanced Technology for longer wearing pigs, makes Knapp the industry leader in reducing costs for the pig user.

The Conical Cup is available in many different formulations of Ultrathane, Knapp's Ultra Performance Urethane, which are fine-tuned for the job requirements. Ultrathane's superior elastomeric physical characteristics in tear and tensile strength provide the ultimate in long wear and scraping ability. Contact the factory for specific Ultrathane formulation recommendations suited for your line.
